

P-11 CLP Annual Review of Contract

The *Book of Order* requires that the contract between the Session and the Stated Supply of the congregation be reviewed annually before it is renewed. In order to accomplish this requirement, at the appropriate time (1 to 2 months before the expiration of the annual contract between the Session and the Stated Supply) the congregation's contact person on COM (or someone appointed by COM for the task) will review the work of the Stated Supply and the Session using the form provided by the Committee on Ministry. This report will be sent to the COM, along with the recommendation as to whether or not the contract should be renewed for another year.
